IMMEDIATE RELEASE – INDIA NETWORK ENHANCES PRE-EXISTING CONDITION BENEFITS
May 3, 2008

India Network Foundation is pleased to announce that the benefits provided under pre-existing condition rider program have been enhanced with effect from June 1, 2008 as given below. The new limits are available for all applications with effective date of June 1 2008 or later as well as renewals after that date.

Policy	Rider Coverage 2007-08 (18-69)	Rider Coverage 2008-09 (18-69)
\$100,000	\$10,000 (Premium 20% more)	\$15,000 (Premium 25% more)
\$150,000	\$15,000 (Premium 20% more)	\$20,000 (Premium 25% more)

The rider program has been a unique important feature that we could sustain with greater participation from the community at large.

There is no increase in premiums during 2008-09 though the inflationary factors are acting at their best in all areas including medical expenses. The rider program is of great value to our program participants given the higher probabilities of loss associated with pre-existing conditions.

Pre-existing conditions are common among 50 plus aged visitors and many families in the last 12 months benefitted from this excellent program. The rider program provided coverage which NONE of the programs in the market offer. With greater participation of community, India Network hope to continue to provide coverage for pre-existing conditions as well as improve other benefits.

We are also working to add pre-existing condition rider benefit to 70 plus age group and when approved, it will be quickly implemented and announced to all members.
